

# Cyber Cafe client brief

Make a **screensaver** that will run in a library

The screensaver needs to be made in  
PowerPoint

It needs to contain information about **staying  
safe online**

# Cyber Cafe client brief

The PowerPoint needs to:

- be made up of 4-6 slides
- use a **consistent** layout and style
- not have a title slide
- not use any design templates
- have a single colour background
- each slide needs no more than 50 words and no more than 2 images
- writing needs to be large enough and clear
- run automatically and loop
- each slide needs a logo in the same place

# Cyber Cafe client brief

You will be told what information to put on each slide

- slide 1 needs to be about personal data
- slide 2 needs to be about social engineering
- slide 3 needs to be about hacking
- slide 4 needs to be about malware
- **slide 5\* needs to be about ways of keeping computers safe**
