

IMMP skills - kiosk mode

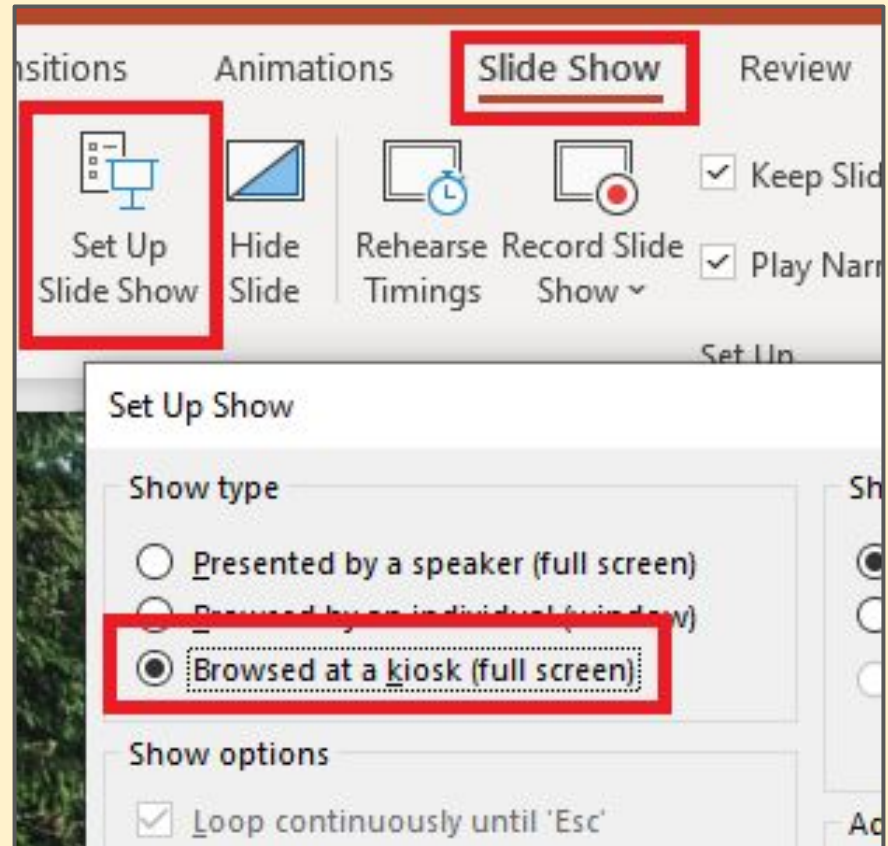

Kiosk mode forces the user to use buttons - they can't just press the spacebar and move from slide to slide.

This is essential for an IMMP piece of work

Slide show

- > Set up Slide Show
- > Browsed at a kiosk

And then test!

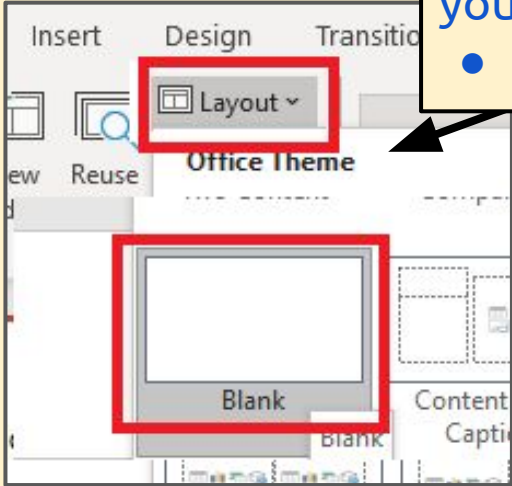

IMMP skills - blank slides

Use **New Slide** and **Layout** to get slides setup right

Blank slides work best - you have control

- **Layout > Blank**

Add new blank slides

- **New slide > Blank**
